1.Introduction

1.1 IEEE

The Institute of Electrical and Electronics Engineers (IEEE) is recognized as the world's largest technical organization committed to the progress of technology for the betterment of humanity. It was formed in 1963 through the amalgamation of the American Institute of Electrical Engineers and the Institute of Radio Engineers. Although its corporate office is located in New York City, USA, the IEEE operates extensively across the globe. Presently, it boasts a membership of over 400,000 professionals from more than 160 countries.

The primary objective of the IEEE is to foster educational and technical advancements in the fields of electrical and electronic engineering, telecommunications, computer engineering, and related disciplines. In addition to its Student Activities Committee, which facilitates collaborations between student activities and other IEEE entities, the organization comprises 39 diverse technical societies. Furthermore, the IEEE is actively involved in charitable initiatives through the IEEE Foundation, which endeavors to promote global technical education and innovation.

1.2 IEEE SLSAC

Established on November 14th, 2003, the IEEE Sri Lanka Section is an esteemed member of IEEE Region 10. Since its inception, it has emerged as a prominent institution dedicated to driving technological progress throughout the nation. Serving as a platform for Sri Lankan technical professionals, the IEEE Sri Lanka Section facilitates networking and collaboration among its members. These members encompass not only industry professionals but also academic faculty from universities, as well as undergraduate and graduate students from various academic institutions across Sri Lanka. The IEEE Sri Lanka Section comprises thirteen technical chapters and twenty-three Student Branches located within Sri Lankan universities. Additionally, it encompasses the IEEE Young Professionals Sri Lanka, the IEEE Student Activities Committee of the Sri Lanka Section, IEEE Women In Engineering Sri Lanka, and SIGHT reflecting its comprehensive and inclusive approach to engaging diverse stakeholders within the field.

The financial healthiness of IEEE SLSAC, as a non-profit volunteer organization, plays a vital role in its sustainability and effective functioning. To ensure proper financial management, IEEE SLSAC has established a "Finance Policy" that serves as a comprehensive guide for finance operations. Aligned with the guidelines outlined in the IEEE Member and Geographic Activities (MGA) manuals, this policy provides a framework for financial decision-making and accountability. The Finance Policy of IEEE SLSAC encompasses various aspects, including the finance hierarchy, operational instructions, job descriptions of finance operators, and the overall finance function. It establishes clear roles and responsibilities for finance operators, ensuring that financial tasks and procedures are executed in a structured and consistent manner. By defining job descriptions, the policy ensures that individuals involved in financial operations possess the necessary skills and expertise to handle financial matters effectively.

Adhering to the guidelines outlined in the Finance Policy is crucial for maintaining a healthy financial situation within IEEE SLSAC. This includes following best practices for budgeting, expense management, financial reporting, and compliance with applicable regulations. By adhering to these guidelines, finance operators contribute to the transparency, accuracy, and integrity of financial operations. Compliance with the IEEE MGA manuals ensures that IEEE SLSAC aligns with the financial policies and procedures set forth by the broader IEEE organization. This helps maintain consistency across IEEE entities and promotes good governance practices.

By emphasizing the importance of financial health and providing clear guidelines through its Finance Policy, IEEE SLSAC demonstrates its commitment to responsible financial management. Adhering to these guidelines ensures that resources are utilized effectively, funds are allocated appropriately, and financial decision-making is conducted in a transparent and accountable manner. Ultimately, maintaining a healthy financial situation enables IEEE SLSAC to support its projects and activities, fulfill its mission, and create a positive impact within the IEEE community.

2. Financial Structure

The hierarchy of IEEE SAC finance operations is overseen by the SAC Chairperson and Zonal Industry Engagement Coordinator, who collectively bear the overall financial responsibility for IEEE SAC. All financial decisions must undergo a thorough review by both the Zonal Industry Engagement Coordinator and the SAC Chairperson to ensure proper governance and fiscal prudence.

Fig 01: Financial Structure

2.1 Zonal Industry Engagement Coordinator

The Zonal Industry Engagement Coordinator serves as a key figure responsible for overseeing the financial aspects within the Student Activities Committee (SLSAC) of the IEEE Sri Lanka Section. This role involves closely monitoring the financial situation and providing assistance as needed to the Sub-Committees and Student Branches.

2.1.1 Financial Oversight and Support

As the Zonal Industry Engagement Coordinator, the individual takes on the responsibility of carefully supervising the financial landscape of SLSAC. This includes reviewing budgets, tracking expenditures, and ensuring adherence to budgetary guidelines. Additionally, the Zonal Industry Engagement Coordinator plays a vital role in supporting the Sub-Committees by offering guidance and insights related to financial decisions.

In situations where the Sub-Committees or Student Branches require financial guidance or assistance, the Zonal Industry Engagement Coordinator is readily available to offer insights, answer queries, and provide necessary resources. This support fosters a culture of financial responsibility and knowledge-sharing within the organization.

2.1.2 Financial Alignment and Decision-Making

By working closely with the Sub-Committees, the Zonal Industry Engagement Coordinator helps ensure that financial decisions are well-informed and in line with the SLSAC's overall goals. This collaborative effort aims to optimize resource allocation and financial management, ultimately contributing to the successful execution of projects and initiatives.

2.1.3 Project Management and Oversight

The Zonal Industry Engagement Coordinator assumes a critical role in projects organized by SLSAC. In cases where projects have a designated Finance Lead or Treasurer, they are responsible for consistently updating the Zonal Industry Engagement Coordinator with comprehensive financial details. Alternatively, if a project lacks a dedicated financial lead, the Zonal Industry Engagement takes on the responsibility of overseeing the project's financial aspects. This proactive approach maintains financial integrity and minimizes potential risks.

2.1.4 Student Branch Engagement

The Zonal Industry Engagement Coordinator serves as a resource and point of contact for all Student Branches within SLSAC. Student Branches are encouraged to engage with the Finance Coordinator to seek guidance and resolutions for any financial challenges they encounter. This

open line of communication fosters a collaborative approach to resolving financial issues at the grassroots level.

2.1.5 Student Branch Annual Review (SSR) Visit

During the SSR visit, the Zonal Industry Engagement Coordinator undertakes the responsibility of meticulously reviewing the financial reports submitted by individual Student Branches. This thorough review process evaluates the financial performance of each Student Branch, identifies trends, and ensures compliance with established financial protocols.

2.2 Project Treasurer / Finance Lead

- Responsible for the financial activities within the project including the preparation of budget reports and maintaining a ledger account of the project
- Treasurer / Finance Lead should act as the point of contact with the Zonal Industry Engagement Coordinator.
- Treasurer / Finance Lead should identify and assess financial risks that could impact the project's finances. Develop strategies to mitigate these risks and ensure the project's financial stability.
- Coordinate audits, both internal and external, to ensure that financial records are accurate and in compliance with relevant standards. Implement internal controls to safeguard assets and prevent fraud.
- Advise the project team on financial matters, helping them understand the financial implications of their decisions and guiding them toward financially sound choices.
- Collaborate with various project teams, such as procurement, finance, and accounting, to ensure accurate and timely financial information exchange.

3. Finance Guidelines

Zonal Industry Engagement Coordinator needs to be copied in all the Finance related emails & should be aware of the content & answerable to any finance-related questions.

- ❖ SLSAC Chair - yohanjoseph@ieee.org
- ❖ Zonal Industry Engagement Coordinators -
 - Zone A: claxina110@gmail.com
 - Zone B: ranasinghepehansa@gmail.com
 - Zone C: tharushinadunika268@gmail.com
 - Zone D: nrathnayake512@gmail.com
- Zonal Industry Engagement Coordinator should adhere to IEEE Values & during the end of term, he/she will be responsible for proper guidance & transition for the successor for the new term.
- All finance-related matters should be communicated through emails well in advance.
- The details of the official accounts for financial transactions of IEEE Section.
- Whenever sharing the account details for external partners, it is required to inform the Chairperson or Zonal Industry Engagement Coordinator in IEEE SLSAC and get the corresponding account details well in advance.
- All the profits, revenues, and in case of not depositing the Revenue / Cash Inflow in the “IEEE Section” account & instead depositing the Profit will result in understating the Revenue of the projects & Sub-Committees, as the bank balance of “IEEE Section” account is considered as the Final Account Balance.
- All the finance requirements should be requested from SLSAC Chairperson or Zonal Industry Engagement Coordinator through an email with budget justification by Project Finance Leads and/or Project chairs/ Student branch Treasure/Chair.
- The finalized requirement should be informed to the Financial Management Coordinator by responsible officers on or before the Financial Year End.
- The budgets included in project proposals, grant submissions, and any other document should be reviewed by SLSAC before the submission

- Sub Committee/ Project / SB Treasurer or Finance Lead should prepare the Annual Finance Report which should be released at Financial Year-End.
- The policies & procedures are to be followed by the Finance Leads with Sub-Committee / Project/ SB chairs under the purview of the Financial Coordinator SLSAC for their respective functions.

3.1 Record Keeping

For every revenue item, it is necessary to issue a receipt & the receipt number should be recorded next to the transaction as a supporting document.

Failure to adhere to the timely support documents, budget justifications & report submissions will result in the breaching of a Project.

Expenses Category

- T : Transport/ Travel
- P : Photography
- M : Miscellaneous
- FB : Food & Beverage
- SD : Sounds & Decorations
- PS : Printing & Stationery
- WP : Winning Prizes
- TOA : Token of Appreciation

It is required to record every income and expense, including data charges, transport bills, and refreshments.

It is recommended to have a digital record of the necessary supportive documents, including deposit slips, invoices, and any other relevant materials in the designated location given in **Table 01 (please refer to the Appendix)**, and update the Ledger accounts accordingly by Project Finance Leads and/or Chairs.

Apart from all the clauses mentioned in the handbook the clauses regarding Finance in Section is valid for all the financial matters within the organization.

3.2 Student Branch

It is required to follow the Budget Report format which is accessible through the following link.

3.2.1 [IEEE SB Budget Format 2026](#)

3.2.2 [IEEE SB Ledger Format 2026](#)

3.2.3 [IEEE SB Invoice & PO Format 2026](#)

All the cash inflows are accompanied by an invoice and receipt.

3.2.4 Invoice Naming Format

IEEESLSAC/INV/<year- yyyy>/<Student Branch>/<Seq. No>

3.2.5 Receipts Naming Format

Student Branch - Project Code - Year - Expenses Category - <Seq. No>

Ex:

- Project: Step Into Industry
- Student Branch - KDU
- Project Code: SII
- Year: 2023
- Receipt: Food & Beverage

KDU-SII-23-FB-0001

The signatories of Counselor / Advisor and Student branch financial Student branch person.
